

Introducción a CSS

Impartido por Daniel Espinosa

¿Qué es CSS?

- Cascading style sheets
- Las hojas de estilo en cascada nos permiten crear páginas web **atractivas**

HTML + CSS

Why do I need to provide this?

[Create a Page](#) for a celebrity, band or business.

Añadir CSS a HTML

- style in HTML tag
- `<style>` tag
- import style from .css file

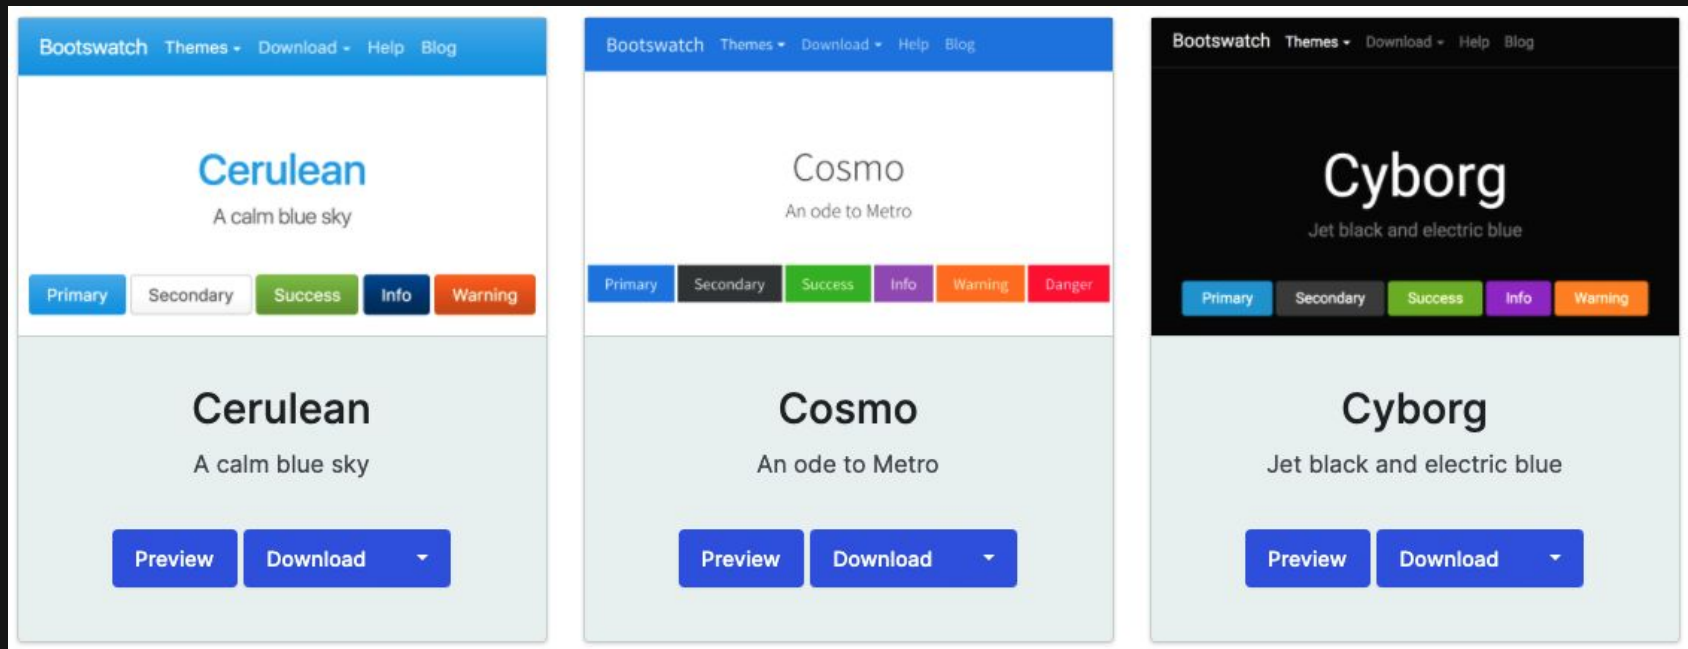

```
<link rel="stylesheet" href="./reto02.css">
```

```
<p style="color: red;">test</p>
```

```
<style>  
  .inner {  
    color: red;  
  }  
</style>
```

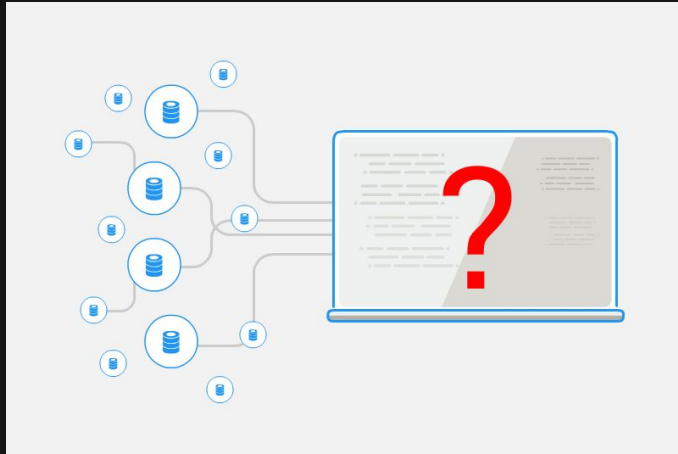

Uno para todos...

Múltiples fuentes de CSS - Jerarquía

1. style in HTML tag
2. `<style>` tag
3. import style from .css file

1. A quién le hago caso?
2. A quién le hago caso?
3. A quién le hago caso?

Empecemos por lo fácil (Algunas propiedades...)

- color
- border
- font-size
- font-weight
- text-align

Color test

Border test

Font-size test

Font-weight test

Text align test

Selectores

- *
- tag
- class
- Id
- Selectores avanzados 😊

Ahora sí, más propiedades 🥲

- width & height
- margin & padding
- display 🔍

Elementos HTML y sus valores por default

Recuerdan???... pues ya los podemos modificar!

```
h1                display: block;
                  font-size: 2em;
                  margin-top: 0.67em;
                  margin-bottom: 0.67em;
                  margin-left: 0;
                  margin-right: 0;
                  font-weight: bold;
```

```
p                display: block;
                  margin-top: 1em;
                  margin-bottom: 1em;
                  margin-left: 0;
                  margin-right: 0;
```

A tomar en cuenta

- Herencia: Algunos valores se heredan a los hijos, **no todos**. (color, font-family)
- Cascada: El **orden** de las reglas importa.
- Especificidad: Ponderación de las reglas a aplicar según los **selectores**.

CSS Diner

Select the pickles beside the bento

CSS Editor

```
1 Type in a CSS selector
2 {
3 /* Styles would go here. */
4 }
5
6 /*
7 Type a number to skip to a level.
8 Ex - "5" for level 5
9 */
10
11
12
13
14
15
16
```

style.css

HTML Viewer

```
1 <div class="table">
2 <pickle />
3 <bento>
4 <orange class="small" />
5 </bento>
6 <pickle class="small" />
7 <pickle />
8 <plate>
9 <pickle />
10 </plate>
11 <plate>
12 <pickle class="small" />
13 </plate>
14 </div>
15
16
```

table.html

- ✓ 11 A *
- ✓ 12 A + B
- ✓ 13 A ~ B
- ✓ 14 A > B
- ✓ 15 :first-child
- ✓ 16 :only-child
- ✓ 17 :last-child
- ✓ 18 :nth-child(A)
- ✓ 19 :nth-last-child(A)
- ✓ 20 :first-of-type
- ✓ 21 :nth-of-type(A)
- ✓ 22 :nth-of-type(An+B)
- ✓ 23 :only-of-type
- ✓ 24 :last-of-type
- ✓ 25 :empty
- ✓ 26 :not(X)
- ✓ 27 [attribute]
- ✓ 28 A[attribute]
- ✓ 29 [attribute="value"]
- ✓ 30 [attribute~="value"]
- ✓ 31 [attribute\$="value"]
- ✓ 32 [attribute*="value"]
